Meeting Information

Date and Place of Meeting

The Embryo Transfer Training Course will take place as part of the BFS Winter College on Monday 3rd December 2007 at the Robinson College, Cambridge, UK.

The City of Cambridge is one of the most important and beautiful in the country, famous throughout the world for its University and colleges. Cambridge retains the ambience of a historic medieval town, yet it is also the birthplace of some of the most recent scientific advances.

The combination of the old and the new, an ancient heritage and modern facilities, makes Cambridge the ideal conference venue. Robinson College is the most recent addition to the 31 colleges that make up the University of Cambridge. Set in several acres of attractive wooded gardens yet only a few minutes' walk from the city centre and the famous "Backs", the College building is architecturally striking and highly functional.
